

ALL GOING TO WORK

MARVELOUS ACTIVITY IN BUSINESS CIRCLES CONTINUES.

MANY SHOPS OPENED

RAILROAD CONSTRUCTION AND CARBUILDING ARE FEATURES.

PACIFIC SLOPE IS AT THE FRONT

COMMERCIAL TRAVELERS SWARM OUT UPON THE ROAD.

Conditional Orders for Goods are Now Released in an Avalanche of Commodities for Distribution—Effect in Europe.

Cleveland, Ohio, Nov. 6.—The announcement is made on good authority that orders have been placed by the railroads of this country, since the election, for 30,000 new traffic cars and 200 locomotives. The Cleveland, Lorain and Wheeling railway has ordered that its shops at Lorain, Ohio, in which operations had been suspended, be completed at once. In this city the commercial travelers of nearly all the big jobbing houses will be sent out on the road next Monday. The Lamson and Session company, puts and bolts, has been working on half-day time and next week will work full time. The Otis steel works will at once start all its departments. The Jobbins Pattern company will employ many men on its contracts conditional upon McKinley's election. The Wellman-Seaver Engine Manufacturing company will start at once on contracts calling for \$6,000 worth of work. Several new business blocks will at once be commenced.

BECAUSE OF MCKINLEY.
Los Angeles, Cal., Nov. 6.—As a result of the election of McKinley, an order has been placed by the Los Angeles machine company for 100 new machines. G. Hoag, for the manufacture of 1,000 compressed air meters which will necessitate the employment of about 200 machinists and others, and also the enlargement of the works for this and other orders contemplated in the future. In placing the order Mr. Hoag said that it had for some time been in abeyance, subject to the political outcome, and would not have been placed had the election gone the other way.

A canvass of the local banks and financial institutions shows that the money market is easing up and that all business is taking on a healthier tone. Considerable gold, which was locked up in safe deposit institutions by timid people, is again flowing back into its natural channels through the banking houses.

CALIFORNIA RAILWAYS.
San Francisco, Nov. 6.—The most significant feature of the revival of business resultant on the election of McKinley, is the talk of mills opening in the near future, industries about to be started, and new chances for employment of mechanics, clerks and laboring men. The Valley road directors are already preparing bonds with a view of promptly resuming construction south of Fresno and in other directions. This work will employ several hundred workmen. The Southern Pacific company's managers anticipate a boom in freight business and look to giving employment in the car shops and along the road in consequence of this improvement. From all directions are heard rumors of an encouraging nature.

ARIZONA MAKES REPAIRS.
Prescott, Ariz., Nov. 6.—The result of the election is already commencing to be felt in Arizona. Colonel A. O. Brode superintendent of the Grand Canyon Water Storage company, has ordered machinery to be placed in Hassayamp river, and upon its arrival he will place a force of men to begin the work for the reconstruction of the dam which was swept away by the flood in 1904. The old dam was 110 feet high and the water covered several acres of land, being used for irrigation and stock raising. It also contemplated to place a large plant at the dam for furnishing power to surrounding mines.

BORING THROUGH MOUNTAINS.
Leadville, Col., Nov. 6.—The Crown Haven Railway, planned and owned by a company, capital one million dollars, was incorporated today at Aspen. This company has a tunnel two miles long and will at once begin work upon the second two miles, which will take it through Smuggler mountain from Aspen to Leadville, from which point it will build two lines of railway, connecting with both the Denver and Rio Grande and the Colorado Midland and on into the rich mineral districts in Eagle and Pitkin counties. The incorporators are men of great wealth and will push the enterprise to completion at a rapid rate.

LOTS OF WORK IN OMAHA.
Omaha, Neb., Nov. 6.—In view of the settlement of the money question, the Omaha Bridge and Terminal company will soon spend between \$200,000 and \$300,000 in improvements in this city, said John R. Webster, general solicitor, this morning. "The work that will be done will be in improving the terminal facilities of the company and will call for grading the building of tracks and similar work."

The Carter White Lead works increased its force fifty men today. The Omaha Waterworks company has arranged to begin expenditures of \$100,000 at once.

COMMERCIAL MEN START.
St. Joseph, Mo., Nov. 6.—The effect of the setting of the money question is being felt in this city. Two years ago eleven stations on the St. Joseph and Grand Island railroad were closed on account of dull business. Yesterday orders were given for the opening of two of the stations, and it is said that headquarters of the road that the others will be opened shortly. Every out-going train last night carried commercial travelers, many of whom have not visited their territory for a long time.

FURNACES FIRING UP.
Warren, Ohio, Nov. 6.—The Thomas furnace at Niles, employing 250 men, will resume work as soon as preparations can be made.

TREASURY IS SORE PERPLEXED.
Can't Supply Currency as Fast as Gold is Offered for it.
Washington, Nov. 6.—Assistant Secretary of the Treasury Charles W. Smith today to consider Assistant Treasurer Jordan on the subject of accepting the large amount of gold now being offered in exchange for currency. It is probable that every effort will be made to accommodate persons desiring currency in exchange for gold, and that the stock of currency will be shipped

from the sub-treasuries having a large surplus to other where the demand is greater.

WILL TAKE IT IN THE LUMP

How McKinley Will be Compelled to Dispose of His Correspondence.

Canton, O., Nov. 6.—The president-elect has not attempted as yet to answer any of the great mass of telegrams and letters which have been deluged upon him except in the special instances of Chairman Hanna, Mr. Bryan and one or two others. The telegrams have come at the rate of 4,000 a day and the letters exceed 1,000 daily. Possibly later, when normal conditions are restored, a uniform code of acknowledgment and response will be prepared, somewhat similar to the plan adopted by Mr. Cleveland. As far as possible Mr. McKinley will give the communications his personal attention.

Some unique messages reached Mr. McKinley today. One telegram was in poetry. Another, from Wooming, stated that a woman presidential elector would vote for McKinley for the first time in history.

Mr. McKinley saw a number of friends during the morning and at noon went for a drive.

MCKINLEY REMEMBERS HIS DEAD

Other Incidents of His Third Day as President-Elect.

Canton, Ohio, Nov. 6.—President-elect McKinley's afternoon outing included a drive to West Lawn cemetery. He went in the old familiar one-horse surrey with several friends. He had with him a half dozen of the beautiful bunch of flowers he left the carriage personally and placed one each upon the graves of the late Mr. and Mrs. James A. Saxton, who were Mrs. McKinley's father and mother. Mr. McKinley further said that though the beautiful flowers brought him to this McKinley lot. Here he placed like tokens in memory of his two daughters, Katie and Ida, who passed away early in life. A score of friends, and similar remembrances upon the graves of his deceased sister, Anna, and his late brother, James McKinley.

Returning home he found a special card from the distinguished Cincinnati man who had come to extend a personal invitation to attend a Commercial club dinner, Nov. 10. Major McKinley explained to them his plans, which were to take a rest quietly at Cleveland next week, and then return to Canton, where he would probably remain arranging for the duties before him. Under the circumstances, he was forced to decline, but he accepted an invitation for the next annual dinner. He likewise extended regrets to invitations from Chicago and Columbus and various other points, and was subject to the political outcome, and would not have been placed had the election gone the other way.

Mr. McKinley was unable to edit up a part of the day, and her physicians think it more important each day that she get away for a change and a rest from the exciting scenes she has witnessed for many weeks past.

Among the telegrams of congratulation today was one from Senator W. A. Allison, sent from Dubuque, Ia., saying: "As your election and complete victory upon your election and complete victory."

A telegram from Louisville, Ky., dated 3 p. m., this afternoon, says: "We still claim Kentucky for McKinley by 600 on the official count. It is progress and as far as heard from, makes no serious change. We are fighting every inch." (Signed) "SAM J. ROBERTS," chairman.

Hon. W. D. Bynum, Chicago, Ill., says: "The country is to be congratulated on your election. In your success, it is believed, is to be preserved the honor of the nation and the integrity of the people."

Hon. J. C. Spooner, Madison, Wis., says: "Heartiest congratulations upon the magnificent victory to which you have so significantly contributed by your letter of acceptance. It is a triumph for the people and your shining record of statesmanship and patriotism."

Hon. J. C. Pritchard (United States senator, Marshall, N. C.), says: "My wife joins me in hearty congratulations to Mrs. McKinley and yourself."

Jacob Rosenberg, president of the Wood association and P. S. Moody, secretary, San Francisco, Cal., The wood workers of California send their congratulations.

The following letter from Major General Miles, commanding general of the army, was received today by Mr. McKinley:

"Headquarters of the Army, Washington, Nov. 4. "It affords me great pleasure to congratulate you on your magnificent victory upon the vindication of your dignified statesmanlike course and the beauty and grandeur of your patriotic utterances, in the glorious result that has been vouchsafed to you and your country by the loyal support of the millions of the sovereign people. You are not alone to be congratulated. Nothing has occurred in our history since Appomattox that has given us so much satisfaction and joy as your election. It is a triumph for the people and your shining record of statesmanship and patriotism."

"I trust you may be equally fortunate in drawing about you a council of most eminent and patriotic statesmen of the nation, to assist you in the discharge of the duties of the office of president of the United States, not only to our own people, but also to the civilized world, who have seen in you a man of high character and high ability."

"I remain, etc., etc." (Signed) "NELSON A. MILES."

JUDGES TO BE APPOINTED

McKinley Will Have a Fine Batch of Them During His Term.

Washington, Nov. 6.—President-elect McKinley has his hands full in terms of what will have the appointment of two judges of the supreme court, three members of the supreme court of the district of Columbia, three members of the court of claims and quite a number of circuit and district judges of the United States, if the present incumbents retire when they become eligible to retire on full pay. All these judgeships are for me, with the privilege of retirement at the age of 70 if they have already served ten years. Justice Field of California has been eligible for retirement from the supreme bench for some years. He is 80 years of age and might as well have his successor appointed at any time by President Cleveland, but his ambition is to eclipse previous records of length of service on the bench. Justice Gray became eligible for retirement March 24, 1898. Chief Justice Blingham of the supreme court of the District of Columbia and Judge Hagner and Judge Cox of the same court will also be eligible for retirement during McKinley's term. Judge Richardson, chief of the court of claims, died a short time ago and his successor will be appointed by Mr. Cleveland. Judges Rehn, Wadsworth and Davis will be eligible for retirement during Mr. McKinley's incumbency. The term of office of Chairman Harrison of the Interstate Commerce commission expires December 31, 1897, and that of Mr. Knapp in December of the present year.

Thacker, W. Va., Nov. 6.—Captain Hatfield and Glenn, his 14-year-old son, were captured in the mountains on Tur river by a posse of citizens. They killed John and Elmer Rutherford and James Chan and made their escape. Hatfield was last seen on election day. Hatfield was leader of the Hatfield gang when they battled with the McCoy gang years ago.

WEIGHT IS LIFTED

BUSINESS WORLD ONCE MORE HAS HOPE IN THE FUTURE.

Three Days Is Too Soon to Expect to Find the Tide Turning Through the Long-Flaciated Arteries of Business, But There is Ample Evidence That the Circulation is Already Under Way to Being Re-Established—Dun's Sounds a Caution Let the First Bunch be Too Energetic—Bradstreet's Notes New Life.

New York, Nov. 6.—R. G. Dun & Co.'s weekly review of trade tomorrow will say: A great revolution has been effected this week in the conditions which control business. It could not be in a fair degree reflected as yet in transactions or in records, but there is ample evidence abroad that a crushing weight has been lifted and rolled away, and the business world has begun to adjust itself in a state of freedom and security which it has not known for years.

It was not strictly logical that what advanced 5 cents in the week ending November and 55 cents for December, and heavy realising of profits showed perception of the fact. Western receipts were only 6,057,159 bushels, against 8,095,100 last year, and Atlantic exports, four times over only 1,583,353, against 1,760,333 last year. A growing disposition appears among farmers to hold wheat for better prices than are now realized, although at present any advance check buying for export speculation in cotton was also excited on the theory that the mills would now start up, as many have done, and would meet a large demand for goods. But the advance was not a real one, and a slight reaction. It will be all the better for business if bright hopes do not hold prices too fast.

The election immediately stiffened prices of pig iron, which reached \$130 at Pittsburgh for Bessemer, and the certainty that many large orders for buildings and bridges and other finished forms would now become operative justified some of the advance. The trade now depends upon the extent of increase in demand for finished products of iron and steel, which is likely to be greatly affected by the course pursued by various combinations. The bid pool, which is still openly undersold at Pittsburgh and has caused no end of disturbance in business by favoring one class of producers over another, has been in session here and is said to have changed its basis of allotment so as to secure fair results. The coal combination is now threatened with a great quantity of orders and is openly undersold. The bar combination, notwithstanding the large rebate, is still demanding more for the prices at which steel bars are sold in great quantities. A slight advance in sheetings and print cloths is the only change which yet appears in the market for cotton goods. Practically no change has yet appeared in the market for woolens, but the report of purchases of wool, including one of eleven million pounds of territory, said to have been made by a syndicate, amounted to \$2,500,000, against \$2,200,000 last year and \$2,215,000 in 1892. The average of prices rose about 10c in October and since September 1, 10c quotations by weight have risen from 12 1/2 to 13 1/2 cents, and 10c to 11c for the same.

Failures for the week have been 230 in the United States against 250 last year, and 42 in Canada, against 49 last year.

BRADSTREET'S

Business was practically suspended throughout the country early this week and there has been a marked improvement in the volume since the election, compared with like periods in preceding weeks.

But manufacturers and jobbers are more inclined to purchase in advance than in the past. The report of purchases of iron and steel, including one of eleven million pounds of territory, said to have been made by a syndicate, amounted to \$2,500,000, against \$2,200,000 last year and \$2,215,000 in 1892. The average of prices rose about 10c in October and since September 1, 10c quotations by weight have risen from 12 1/2 to 13 1/2 cents, and 10c to 11c for the same.

THE PROBABILITY OF A RAISE IN THE AMERICAN MARKET

The probability of a raise in the American market for cotton goods is now considered. The election has been a marked improvement in the volume since the election, compared with like periods in preceding weeks. But manufacturers and jobbers are more inclined to purchase in advance than in the past. The report of purchases of iron and steel, including one of eleven million pounds of territory, said to have been made by a syndicate, amounted to \$2,500,000, against \$2,200,000 last year and \$2,215,000 in 1892. The average of prices rose about 10c in October and since September 1, 10c quotations by weight have risen from 12 1/2 to 13 1/2 cents, and 10c to 11c for the same.

Sales of cotton goods have been freer and some mills are better employed. Woolen mills are also better employed and a tendency to prefer higher cost goods. Numerous industrial establishments which have started up within two days report a marked increase in orders and a corresponding increase in sales. The wool industry has experienced a decided impetus and better spirits are manifest all around amongst those engaged in that industry.

An upturn in the market for pig iron is also indicated. Prices are reported at Bradford, where prices for all classes of wools hardened on the improvement. The yarn spinners have advanced their prices for raw material by raising their prices in some cases one penny per pound. The makers of coatings and linings for the American market are confidently preparing for a revival of the American inquiry for lace. The hosiery trade, which has been inactive, now shows signs of improvement. Prices for lace are now much firmer. Mr. McKinley's majority has been a decided confidence. There has been a marked improvement in the volume since the election, compared with like periods in preceding weeks.

The South Wales iron market has already shown a marked improvement. The iron market is also better employed. Prices for all classes of wools hardened on the improvement. The yarn spinners have advanced their prices for raw material by raising their prices in some cases one penny per pound. The makers of coatings and linings for the American market are confidently preparing for a revival of the American inquiry for lace. The hosiery trade, which has been inactive, now shows signs of improvement. Prices for lace are now much firmer. Mr. McKinley's majority has been a decided confidence. There has been a marked improvement in the volume since the election, compared with like periods in preceding weeks.

Business failures throughout the United States this week number 230, twenty-three fewer than last week, thirty-three fewer than the corresponding week of 1895, eighteen fewer than in the like period of 1894 and 119 less than in the first week of November, 1893.

There are 59 business failures reported from the Dominion of Canada this week, as compared with 37 last week, 29 in the corresponding week a year ago, 49 two years ago and with 25 in the first week of November, 1893.

BRADSTREET'S STOCK REVIEW

New York, Nov. 6.—On Tuesday evening, when the returns made the result of the polls sufficiently plain, large buying orders were called in London. Some estimates put the orders at as high as 200,000 shares of stock and orders for about 50,000 were executed. This caused a general advance in the American market. When our own market opened on Wednesday morning there was a decidedly enthusiastic mood, and the first quotations were from 2 to 7 points above the close on Monday. The disposition of the professional element to take profits on the advance was marked, and prices promptly receded from the opening. This selling was, however, met by purchases of interests which kept out of the market over the election, and by a fair vol-

ume of commission house purchases. On Thursday, however, the market seemed to be under a reactionary influence. The fact that some states were in alleged doubt produced caution and hesitation, while rumors of possible intervention by our government in Cuba resulted in a renewal of a bullish sentiment. The feature was the appearance of heavy orders for buying orders, and the result being a considerable reaction on the market. Friday, however, brought a renewal of a bullish sentiment. The feature was the appearance of heavy orders for buying orders, and the result being a considerable reaction on the market. Friday, however, brought a renewal of a bullish sentiment. The feature was the appearance of heavy orders for buying orders, and the result being a considerable reaction on the market.

EFFECT BEYOND THE SEA

What the Election of McKinley Had Done for Business Abroad.

London, Nov. 6.—The Associated Press has commissioned a number of competent observers to make inquiries in various business circles in London as to what effect the election of McKinley has had on the business outlook in England. In review and summarizing the results of these inquiries it is shown that the election has had a most favorable effect on financial and commercial interests here. The universal rise in values in all markets here demonstrates the fact that the election has had a most favorable effect on financial and commercial interests here. The universal rise in values in all markets here demonstrates the fact that the election has had a most favorable effect on financial and commercial interests here.

There is a feeling of relief in the city that the United States is about to begin on the stock exchange. The buoyancy which has characterized American securities has been extended to other departments. The rise in the prices of American securities on the exchange has been general all along the line. Notable instances are Chicago, Milwaukee and St. Paul, which are 10 to 15 per cent higher, compared with the eve of the election. Louisville is 7 1/2 per cent higher, and New York Central is 5 per cent higher. The stocks of reorganized American roads are in good demand at advanced prices. The chief adjustments have been made in Atchafalpa and Denver and Rio Grande first calls.

COURTS MUST SAY

DELAWARE'S LEGISLATURE STANDS IN DOUBT.

Whether it is to be Democratic or Republican the canvassing board is unable to determine, and Mr. Adickes' Senatorial Case is Corresponding Doubt—Excited Republicans Stand by to Watch the Count at Wilmington—South Dakota Tied on Electors—Kentucky Closer and Closer—Latest Returns.

Wilmington, Del., Nov. 6.—The political complexion of Delaware's next legislature will have to be fixed by the courts. The official count, completed today, sets in the state senate the following:

Newcastle county, John Pyle, Democrat; R. J. Handy, Union Republican, and Samuel Aldrich, Republican, Handy and Aldrich are hold-overs.

Kent county, John W. Fennimore and Hezekiah Harrington, both hold-overs, Democrats.

The third senator from Kent is in doubt, both Republican and Democratic election boards having made mutual claims on the fact that they have Lewis and Clark county, both hold-overs, Democrats.

In the house the Democrats have 11 and the Republicans 12. The defeat of J. Edward Adickes' aspirations for the United States senate is almost assured. McKinley's official plurality in the state is 1,537.

SCENES OF EXCITEMENT

Republicans Keep Guard Over the Democratic Canvassing Board.

Wilmington, Del., Nov. 6.—At 1 o'clock this afternoon the canvassing board was in session in the court house of Newcastle county.

They were at work in the court house all night surrounded constantly by a howling mob. The mob had gone forth that the Democratic inspectors intended to count out William R. Flynn, Republican, for sheriff, and this caused considerable excitement.

On the strength of this information all Democratic money offered on Tuesday was freely taken. The mob had gone forth that the Democratic inspectors intended to count out William R. Flynn, Republican, for sheriff, and this caused considerable excitement.
